### Schumann's Sales & Service

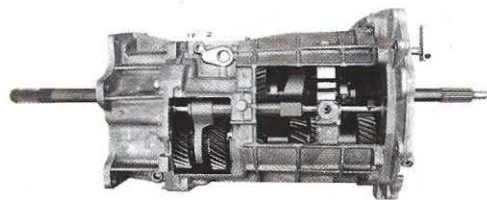

Schumann's offers an "energy recovery" low-friction, high-flow oil pump for small and big block Chevy V8s. This patented component offers energy recovery technology, converting spent energy into applied energy oil flow. Models for 302/351 Windsor Ford applications will be available soon. Contact Schumann's Sales & Service, PO Box 128, Blue Grass, IA 52726; 563/381-2416.

### Crow Cams

Crow Cams introduces stainless steel stud type roller rockers for budget-minded racers. They are designed to offer virtually zero arm deflection for maximum valve lift and resistance to arm breakage. The over-size rocker shafts allow for 7/16 studs to be used without compromising shaft strength. The larger shafts and needle roller bearings also offer greater load capacity for high valve spring pressures. Contact Crow Cams, 16 Colbert Rd., Campbellfield, VIC, Australia 3061; +61 (03) 9357 0469; sales@crowcams.com.au.

### MTI Racing

MTI offers a six-speed sequential transmission for C5 and C6 Corvettes, designed to accomplish exceedingly fast no-lift gear shifting. A direct bolt-on dog-engagement transmission, the service will soon be extended to Camaro, Mustang and Viper—all front-mounted Tremec T-56 and T-6060 transmissions. Using the original Tremec gear case, MTI converts the internals and the H-pattern shift mechanism to full sequential operation. Contact MTI Racing, 1190 Hayes Ind. Dr., Marietta, GA 30062; 770/919-7774.

### Blair Equipment

Blair Equipment introduces a new Rotabroach Sheet Metal Hole Cutter Combo Kit. This kit combines two of the most popular kits, the small diameter kit and the large diameter kit, into one convenient package. Included are 13 sizes of Rotabroach Cutters from 5/16-inch to 1 1/2-inch. These cutters can drill holes in materials up to 1/4-inch or 1/2-inch thick depending on diameter, and are ideal for use in fabrication. Contact Blair Equipment, PO Box 2005, Flint, MI 48501; 810/635-7111.

### C&R Racing

C&R produces air-to-oil coolers for racing and high-performance street applications, including the 41-00000 oil cooler. This design incorporates a remote oil filter mount. If more cooling is needed, C&R can tailor a cooler to the application. Contact C&R Racing, 6950 Guion Rd., Indianapolis, IN 46268; 317/293-4100.
